

Achieve Smarter Video Surveillance

Improve remote awareness and operational efficiency, with data-driven video insight into how people move through your space.

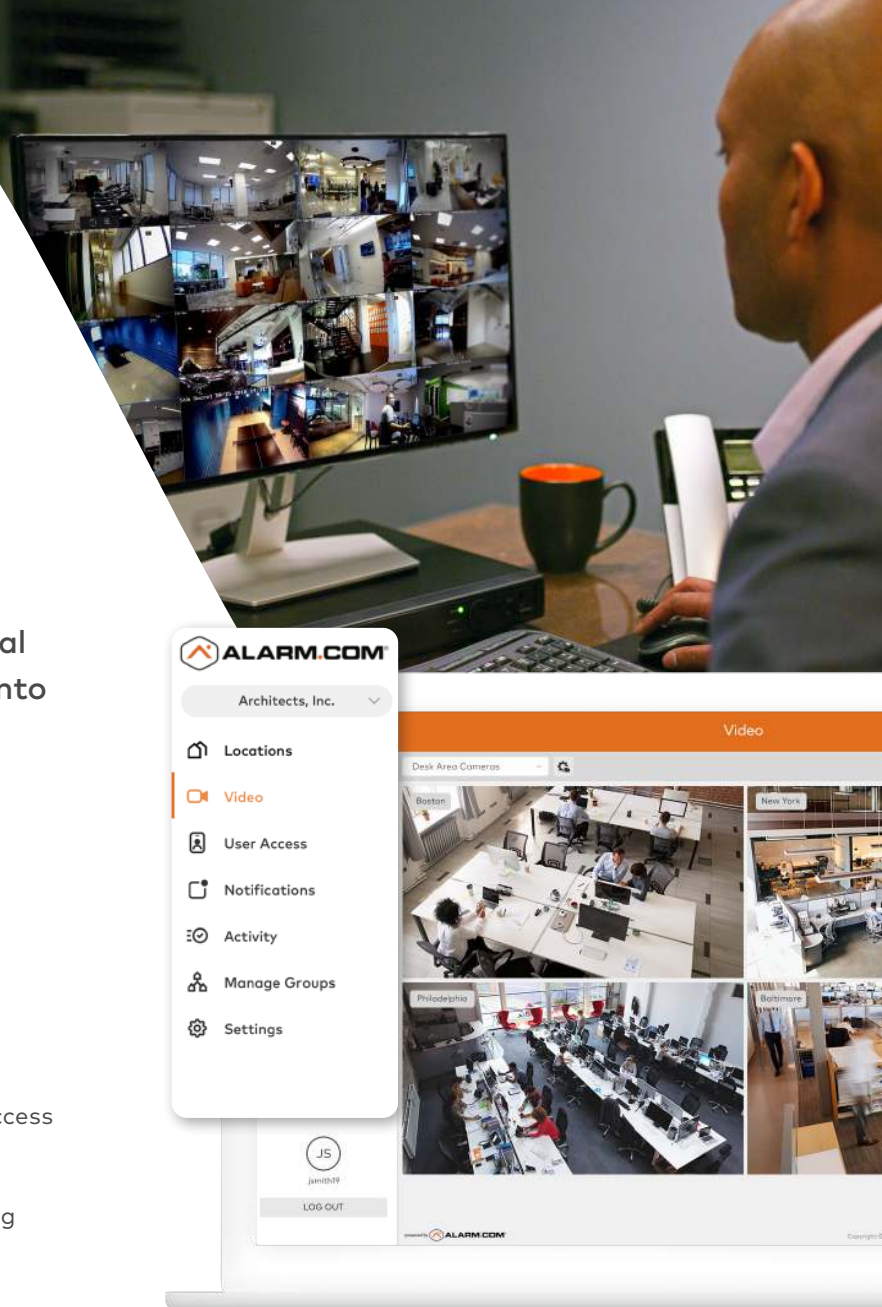

EASY OVERSIGHT OF ALL YOUR LOCATIONS

Intelligent analytics and customizable **reporting** produce valuable insights into business operations.

Intuitive Enterprise Dashboard organizes **multiple locations**, visualize data and more.

A single intuitive app and **flexible storage** allows access to live or recorded video anywhere, any time.

Advanced features like 24/7 video health monitoring ensures cameras are always up and running.

Commercial-Grade Stream Video Recorder (CSV)

For businesses across multiple industries, the average time length of video storage needed is 27 days.¹

Engineered to store and play up to 24TB of video with HDMI-enabled live view and playback, Alarm.com's CSV is ideal for businesses that need a professional, 24/7 local video storage solution.

BUSINESS CAMERAS THAT CAN DO MORE

Business Activity Analytics

Commercial-grade cameras use heat mapping, crowd gathering alerts, occupancy tracking, people counting, and queue monitoring to manage visitor movement.

Cloud-Based Solution

OpenEye, a subsidiary of Alarm.com, offers a cloud-based video management platform designed for commercial properties. Learn more at **OpenEye.net**.

Perimeter Detection Analytics

Cameras can accurately identify if a person or vehicle is on a property, while ignoring unimportant motion like rain or swaying trees.

COMMERCIAL-GRADE HARDWARE

Rugged, impact resistant casings for the toughest commercial applications

Superior IP67 waterproof and dustproof rating for indoor or outdoor use

Compliant with Section 889 of the NDAA*

Supports 24/7 Onboard & SVR Recording

Supports Business Activity Analytics

Power over Ethernet (PoE) design means data and power run over a single cable for less wiring and easier installs
